Agnieszka Rymaniak.....
attended a course on
“Pancreatic Exocrine
Insufficiency”

On: *19th March 2018*

In: *Cambridge.....*

Sponsored by an unconditional educational grant from Mylan.

made a **difference**

Award Nomination

**Cambridge
University Hospitals**
NHS Foundation Trust

July 2020

To *Agnieszka*,

The Trust is proud to run a scheme which recognises individuals and teams who have made a difference to those around them; either to patients and visitors or to staff working on this site.

You have been nominated for your valued contribution at CUH.

Here is an extract from your nomination(s):

Agnieszka makes a difference to my role as a liver dietitian at CUH on a daily basis. She is very approachable, hard working and adaptable. She has enhanced her skills to take on some duties previously done by dietitians, allowing the dietitian to spend more time face to face with patients. CUH needs more Agnieszkas!

At the next panel meeting your nomination will be considered alongside all others received. Winners will be notified soon after and all other nominations will be listed on Connect.

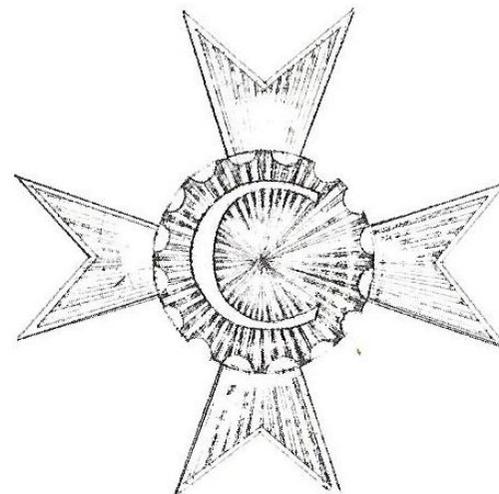

The Panel would like to extend their thanks to you and acknowledge your invaluable contribution to the Trust during the course of your duties.

Yours sincerely

Roland Sinker
Chief Executive Officer

Dr Mike More
Chairman
